

GAME OVERVIEW

Title: Counter Strike Global Offensive (CS:GO).

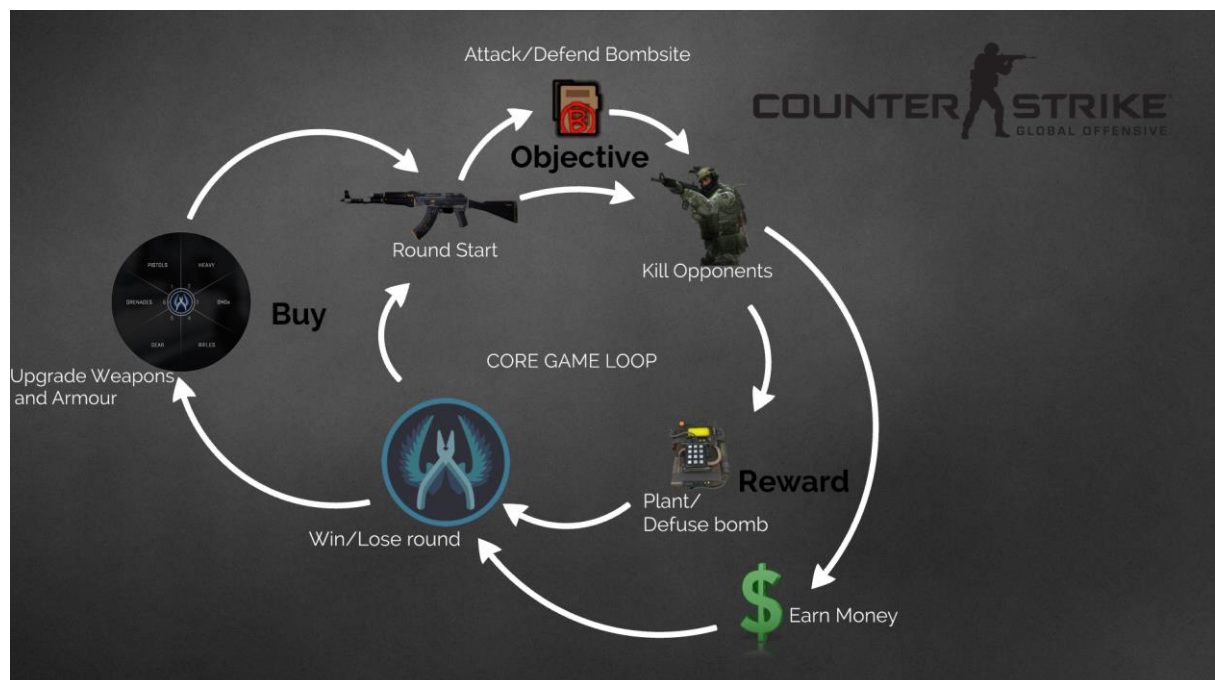

Genre: Tactical first-person shooter.

Target Audience : around the teen years and above.

CORE GAMEPLAY

A. Core Gameplay Loop

Counter-Strike: Global Offensive (CS:GO) is a competitive first-person shooter where two teams, Terrorists and Counter-Terrorists, face off in round-based matches. The goal is to complete objectives or eliminate the opposing team. If the Terrorists plant the bomb, the Counter-Terrorists have a limited time to locate and defuse it. If the bomb detonates or the CT team is eliminated, the Terrorists win the round.

B. Character/Teams and Objectives (example 1)

1. Terrorists (T): The Terrorist team's main objective is to plant the bomb at designated bomb sites (A or B) and defend it until it detonates.

2. Counter-Terrorists (CT): The Counter-Terrorist team's main objective is to prevent the bomb from being planted or to defuse it if planted.

B. Character/Teams and Objectives (example 2 'Apex Legend')

1. Offensive Legends:

Offensive Legends are focused on engaging enemies aggressively and dealing damage quickly.

2. Defensive Legends:

Defensive Legends excel at holding positions, providing cover, and controlling the battlefield.

3. Support Legends:

Support Legends enhance the team's capabilities by providing healing, reviving, and utility.

4. Recon Legends:

Recon Legends gather information about enemy positions and provide situational awareness.

5. Hybrid Legends:

Hybrid Legends combine aspects of multiple roles to adapt to different situations.

B. Character/Teams and Objectives (example 3 'Moba')

1. Tank: Initiates team fights, absorbs damage, and disrupts the enemy team.

2. Carry: Deals high damage output and scales with items and experience.

3. Support: Provides healing, crowd control, and utility to assist allies.

4. Assassin: Focuses on eliminating high-priority targets quickly.

5. Jungler: Roams the jungle to gather resources, secure objectives, and apply pressure across the map.
